

Head Start is a comprehensive program that primarily serves children from income eligible families. Children enrolling in Head Start must have reached their third or fourth birthday by September 1st of the enrollment year. Early Head Start children should be younger than 36 months of age. We welcome children with disabilities. We also take into consideration factors that may put the family at risk.

We also have a prenatal education program for women. This includes monthly visits to provide education on various health topics that apply to pregnancy. It also includes a two week post partum visit by a nurse. Once your child is born the child will then be enrolled.
